PE LINER

■ Introduction

The Packing Materials are polyethylene foamed sheet

The Packing Materials have been made a good high reputation, mainly because of the advantages of hygienic and odorless.

■ Characteristics

- (1) Very hygienic (verified by the test report of the Japan Food Sanitation and Association)
- (2) Pearly gloss and clean surface
- (3) Good cushioning effects and packing quality
- (4) Good chemical-resistance and water-proof property
- (5) Wide variations of numerous film laminated grades, which can meet demands for gas-barrier and water permeability-proof properties, Easily colorable to any color and highly printable

Grade	Laminated film	Characteristics	Major Applications	Thickness (mm)
S	None	2.0 times-expanded foam	Various beverages	0.5~6.0
SS	None	2.5 times-expanded foam	Various beverages	1.0~2.5
L	None	3.0 times-expanded foam	Various beverages	1.0~2.0
PE	PE film	Excellent flexibility, chemical resistance.	Various alcoholic beverages(shouchu, whiskey, nihonshu etc.)	1.0~2.0
PP	OPP film	Excellent gloss and chemical, impact resistance	Cosmetics, shampoo and rinse.Various alcoholic beverages	0.8~4.0
3SPP	OPP film	Product formed by laminating OPP film onto 5-times-expanded PE foam	Cosmetics	1.0~2.0
PET	PET film	Excellent scent retention, strength, stiffness and moisture, impact, chemical resistance	Various alcoholic beverages(shouchu, whiskey, nihonshu etc.)	0.5~2.0
AL	PET/AL composite film	Superb gas barrier properties Metallic appearance	Shoe polish, cosmetics and colors	1.0~2.0
